LYCON HOT WAX

Use Lycon hot wax to achieve smooth, hair free results. This method is substantially less painful than your normal strip wax. With Lycon the oil is applied to add a barrier to the skin. The wax will then shrink wrap itself around the hair to ensure you get no uncomfortable pulling of the skin upon extraction. This wax also removes hair as short 1mm. Highly recommended.

Dermaplaning is a method of exfoliation that consists of using a sterile scalpel to gently scrape off the top layer of dulling dead skin cells and revitalise hair in order to reveal a smoother brighter complexion while allowing products to penetrate deeper in to the skin.

ESSENTIAL DERMAPLANING FACIAL	£55
EXPRESS DERMAPLANING	£40

Dermapen allows controlled induction of the skins self-repair mechanisms by creating micro injuries in the skin which trigger new collagen synthesis. It does not pose the risk or permanent scarring. The result is smoother younger looking skin and improved skin elastin and collagen. This also great for scars stretch marks and much more.
